Вітаємо з захистом дипломної роботи!

Ви вже дійшли до другого етапу на своєму шляху до Відділу кар'єри - виконання тестового завдання

Тестове завдання

Критерії оцінювання тестового завдання описані в полі нижче.

Бажаємо успіхів!

Задание

Pre-employment testing

You are supposed to complete this task in **FOUR** days

Part I. Answer the questions without using a synopsis

Task	Estimation	Maximum
Give a definition <ul style="list-style-type: none">Software testingTesting cycle and software life cycleTest caseDefectBug Describe <ul style="list-style-type: none">Components of the test caseTypes of testing do you knowLevels of testingPrinciples of testingTest design techniques	Each correct answer - 1 point	10 points

Part II. Write test cases

Task	Estimation	Maximum
<ul style="list-style-type: none">Write as many test cases as possible for the following system: <p>Our website contains a user submission form (Name, phone, email). After form submitting, the data is being saved in our DB. In addition to the form details, we get a unique user ID on each user visit to the website. This data is also saved to DB. On top of that, we have a CRM system, which sends up to 3 emails (Automated process that sends email to all the valid users at 20:00) to each user from DB. In case the user signed up via the email, the system will stop sending him emails regardless of the number of emails that have already sent. (You are supposed to write simple small cases formed in a case suite according to what is being checked)</p>	At least 2 cases to check the fields - Name, phone, e-mail - 6 points At least 3 cases to check the submission of the form - 3 points At least 1 case to check the storage of the ID in the database - 1 point At least 5 cases to check the CRM system - 5 points.	15 points (cases with all components)

Part III

Task	Estimation	Maximum
<ul style="list-style-type: none">1) Create a checklist for the Trailer functionality in VoliaTV (format - google sheet);2) Test and record the results in the checklist;3) If bugs are found - make a bug report on a separate page; <p>Application: VoliaTV from the market (for iOS or Android, depending on what you have) Feature: Movie Trailer Functional requirements: User Story I, as a user, want to be able to watch a movie trailer</p> <p>-----</p> <p>Use Case (trailer) Characters: U - user (user); App - mob. Volia TV app. Water Asset - Content Unit (Movie) Precondition: 1. U clicks on the Water Asset poster. 2. The app opens a page with a description of the movie. 3. The app displays a "trailer" button. Steps: 1. U presses the "trailer" button. 2. The App opens the full-screen player and launches the video of the movie trailer. 3. As soon as the trailer video ends, the App closes the full-screen player and returns U to the asset description screen. Important! Applies to both authorized and unauthorized users. The asset can be in any status: available, order, no status. The trailer can be viewed free of charge and without displaying ads. For example: Tonya against everyone (trailer) 2018, comedy, biography, drama Test data: Мумія, Малефісента.</p>	Checklist according to the requirements for 15 points: 1 point = 1 point For each bug report with all its components + 5 points	30 points

Part IV

Task	Estimation	Maximum
<ul style="list-style-type: none">Create Postman collection with GET requests to this API https://api.spaceflightnewsapi.net/v3/documentation <p>Be sure to use filters in queries</p>	Execute 4 queries obtained using the filter 5 points for each request are obtained with the applied filter. Screen in expanded form, where you can see the application of the filter and the result	20 points

Part V

Task	Estimation	Maximum
It's 2 a.m. It's raining outside the window. How likely is it that there will be sunny weather in 71 hours?	5 points for the correct answer	5 points

A total of 80 points can be scored, provided that all criteria and deadlines are met.
